

Guiding Your Members on Their Cancer Journey

We're here to help and support your teammates after a cancer diagnosis.

A cancer diagnosis is typically a shock. No matter the course of treatment, it's going to be an emotional and complex journey that impacts your team member and everyone around them.

That's why we are providing Lantern as a benefit to your members, giving them an oncology nurse-led program designed to guide members from their initial diagnosis through active treatment and beyond, ensuring access to excellent care where and when they need it.

What Your Team Gets From Lantern

Lantern is the first end-to-end cancer care solution, providing your members with:

Guided Support

Should they need it, each member has access to their own Oncology Nurse Navigator-led team who will be with them and their loved ones every step of their journey. This support team will provide personalized guidance, coordinate appointments, explain treatment information and answer questions.

Access to Excellent Care

We connect your members with the best in-network community oncology clinics, hospitals and National Cancer Institutes for high-quality care as convenient and close to their home as possible.

Expert Review & Advice

Our team will assist in coordinating the expert review of members' diagnoses and treatment plans, recommending second opinions and referrals as needed.

Resources for Your Benefits Team

We're here to help make your life easier as you educate and inform members about Lantern. That's why we'll be providing you with an Education Library that features:

- Benefit overview documentation
 - What is covered?
 - How does it work?
 - What can members expect?
- Digital & hard copy materials to share with members
- Continual contact to answer questions

We're Here for Whatever You Need

Whether you have a question about this new benefit or one of your members needs to utilize Lantern, call or email us.
